It is proposed that the existing Hub Notice Board be replaced with a new oak-style model.

The current board is no longer sufficient to display all Hub and Council information clearly. It also suffers from condensation, making notices difficult to read.

A larger, improved design would provide ample space for council notices, community updates and event details, ensuring they are clearly visible and well-protected.

The oak finish would complement the style of the Community Hub, creating a more coordinated and attractive appearance.

The existing board could be repurposed elsewhere in the parish, allowing it to remain in use and continue serving the community.

Example –

2-bay, 9 x A4 oak noticeboard (Ref: D9A4/O) £1,891.96 (excl VAT)
external, lockable oak notice board, portrait format, glazed. Can be wall, post or railing-mounted. Overall dimensions 1550mm wide x 1064mm high (without header). Display dimensions 630mm wide x 891mm high per bay. Display capacity 9 x A4 sheets in portrait orientation per bay.
